MAIN ACTIVITY

- ◆ Production facilities abroad :

YOUR FIELDS OF EXPERTISE

TRANSPORT

- Automotive manufacturing
- Aeronautics manufacturing
- Railroad manufacturing
- Motor manufacturing
- Space launchers
- Urban and road transport
- Automotive equipment manufacturing
- Aeronautics equipment manufacturing
- Railroad equipment manufacturing
- Industrial vehicles
- Commercial and military transport ships
- Exploration equipment
- Satellites
- Airborne armament
- Missiles
- Others :

INDUSTRY

- Photovoltaic collector
- Software
- Home appliances
- Electronic
- Renewable energies
- Information systems
- Audio-visual equipment
- Emission relay equipment and data retransmission
- Medical equipment
- Machine tools
- SSII
- Automation
- Probes and sensors
- Embedded Communication
- Video games
- Portable bar code reading equipment
- General public machines
- Audio-visual equipment
- Others.....

YOUR SPECIFIC CAPABILITIES

EMBEDDED REAL TIME SOFTWARE

- Logic analysers, Test and verification software
- Software development
- Software engineering
- Tools for firmware and driver development
- PCs Cards
- Bus controller
- Opto-electronic components
- Connectors
- Converters, inverters, variators
- Screens and Monitors
- Debuggers
- Emulators and On-chip debugging tools
- Software
- Visualization software
- Hardened industrial PCs, work stations, storage
- Time switches for realization of applicable software
- Real time imagery, multimedia, Internet communication
- Wired and wireless modules
- Micro-controllers (MCU) - Microprocessors (CPU)
- Programmable and specifics Components
- Test and verification software
- Real-time operating system / Embedded Linux
- Simulators

EMBEDDED SYSTEMS

- Batteries and energy storage
- Boxes
- Research study offices
- Bus ground
- Electronics cabling
- Calculators
- Sensors, Control, Measure
- Photovoltaic collector
- Certifications
- Actives Components
- Passive Components
- Power Electronics
- Industrial electronics, logical analysers
- On board monitoring electronics manufacturing
- Optical fiber
- Control systems, automation
- Operating systems, simulators
- Telecommunications, Satellite, GPS, Real time network
- Sheet metal manufacturing
- Plastic injection
- Tools for hardware and software design
- Others.....
